WHY

YOURSHINE?

为什么选择月仙？

精益求精 进取创新

KEEP IMPROVING, ENTERPRISING AND INNOVATIVE

月仙以技术和创新为发展原动力,致力于发展成为一家集铝合金设计、模具制造、铝材挤压、表面处理和精密加工一体化的科技型企业,为客户提供一站式解决方案。

Yourshine with Technology and Innovation as the driving force of development, Yourshine is commit-ted to become a technology-based company that integrating aluminum alloy design, mould manufacturing, aluminum material extrusion, surface treatment and precision machining, and to provide to customers with one-stop solutions.

APPLICATION FIELD
应用领域

1 新能源汽车及轻合金铝型材
Aluminum materials for new enery vehicle

2 轨道及交通运输铝型材
Aluminum materials for rail transportation

3 光伏及绿色电力铝型材
Aluminum material for photovoltaic green power

4 建筑及保温工程铝型材
Aluminum materials for constructive thermal isolation

5 工业生产铝型材
Aluminum material for industrial production

COMPANY

PROFILE

公司简介

月仙科技是一家专业的现代化铝型材制造企业,隶属月仙集团,与月仙冷藏、月仙门业共同成为集团的三大支柱产业,公司主要为新能源汽车、光伏绿色电力、轨道交通、建筑及保温工程等提供高品质的铝产品,秉承“服务至诚、精益求精、规范管理、进取创新”的经营理念,具有2万吨型材深加工能力。

Yourshine Technology is a professional modern aluminum manufacturing company. It is afiliated to Yourshine Group, which has two other pillar industries - Yourshine Refrigeration and Yourshine Door Industry, Adhere to the operation principle of Sincere Serveices, Standard Management, Continuous Innovation and Keep Improving, Yourshine is capable of 20,000 tons of material deep processing, and mainly provides high-quality aluminum products to new energy vehicles and photovoltaic green power industry, rail transportation, construction and thermal insulation industry.

CORPORATE

HISTORY

大事记

拼搏与奋进

Hard work and endeavour

2021
诞生 Born

月仙科技成立于2021年

Yourshine Technology was founded in 2021

2021
成长 Grow Up

引进2000吨挤压设备，与达亚和多利达成战略合作。

Introduced 2,000-ton extrusion equipment and reached strategic cooperation with Daya and Dolly.

2022
发展 Develop

力争为客户打造一站式解决方案，引进CNG加工中心、三坐标检测仪等等设备，并单独设立了机加工车间、表面处理车间。

We strive to create a one-stop solution for our customers, introduce CNG machining centers, three-coordinate measuring machines and other equipment, and set up separate machining workshops and surface treatment workshops.

2023
提升 Enhance

与中国重汽、中航重工旗下的开乐冷藏车达成战略合作。

We have reached a strategic cooperation with Kaile refrigerated trucks under China National Heavy Duty Truck Group and AVIC Heavy Industry.

2024
畅想 Imagination

引进4000吨挤压设备，专注高品质高难度铝型材生产，为客户提供更好服务，更好产品。

We introduced 4,000-ton extrusion equipment, focusing on the production of high-quality and high-calorie aluminum profiles to provide customers with better services and better products.

PROFESSIONAL AND
COMPLETE GUARANTEE SYSTEM
专业完善的保障体系

品牌荣誉　实力认证
Brand honor strength certification

我们珍爱用多年汗水铸造的品牌，珍惜每一份来之不易的荣誉。
面对掌声我们没有眷恋徘徊，也不曾犹豫不决，我们把它化作前进的动力，
一步一个脚印，不断锐意进取，超越自我！

We cherish the brand which is cast by sweat for many years, and cherish every hard-earned honor.
In the face of applause, we have no attachment or hesitation. We turn it into a driving force for progress.
Step by step, keep forging ahead and surpass yourself.

COMPAY

CULTURE

企业文化

经营理念

秉承“服务至诚、精益求精、规范管理、进取创新”的经营理念。

Adhere to the operation principle of Sincere Serveices, Standard Management, Continuous Innovation and Keep Improving.

企业宗旨

以专业铸造精品，以品质成就品牌，以创新促进发展。

Create quality products with professionalism, build brand with quality, and promote development with innovation.

企业精神

时刻准备，保持专注，高效优质，追求完美。

Always be prepared, stay focused, be efficient and high quality, and pursue perfection.

企业目标

致力于发展成为一家集铝合金设计、模具制造、铝材挤压、表面处理和精密加工一体化的科技型企业。

Commit-ted to become a technology-based company that integrating aluminum alloy design, mould manufacturing, aluminum material extrusion, surface treatment and precision machining

YOURSHINE ALUMINUM

RESEARCH AND
DEVELOPMENT STRENGTH
研发实力

强大的设计研发力量
构成了月仙技术源头上的领先优势

The abundant design & development personnel form the leading superiority of YOURSHINE Co. in terms of technological sources.

在“精益求精、进取创新”的经营理念驱动下,致力产业发展与行业进步;

Driven by the business philosophy of "excellence, enterprising and innovative", we are committed to industrial development and industry progress;

公司不断提升和强化研发能力,精准匹配客户需求,满足客户独特要求;

The company continues to improve and strengthen research and development capabilities, accurately match customer needs, to meet customer unique requirements;

提供新型的铝合金产品设计,融合加工新技术,精细热处理工艺,流变协同的挤压模拟与模具设计;

Provide new aluminum alloy product design, new fusion processing technology, fine heat treatment process, rheological coordination extrusion simulation and mold design;

MANUFACTURING EXCELLENCE
卓越制造

以卓越技术，打造铝业领军品牌
强大的产能和研发实力，铸就铝业辉煌

With excellent technology, build a leading brand of aluminum industry
Strong production capacity and research and development strength, cast aluminum brilliant

产品介绍

新能源汽车铝型材
Aluminum materials for new enery vehicle

基于公司“服务至诚、精益求精”的经营理念，在品质至上的质量方针下，为国内外多家知名汽车品牌提供优质、可靠的铝合金零部件。交通运输轻量化是全球节能减排的重要一环，我们积极参与新能源汽车零部件开发及生产。

Based on the company's business philosophy of "Sincere service and excellence". Under the quality policy of quality first, itprovides high quality and reliable aluminum alloy parts for many famous automobile brands at home and abroad. Lightweighttransportation is an mportant part of global energy saving and emission reduction, we actively participate in the development andproduction of new energy auto parts.

光伏及绿色电力铝型材
Aluminum material for photovoltaic green power

太阳能光伏发电因其清洁、安全、便利、高效等特点，成为世界各国普遍关注和重点发展的新兴产业。月仙铝业利用自身优势，积极投入，为行业的快速发展提供质量可靠的各种铝型材产品，真材实料，精工细作，经久耐用，助力行业发展。

Because of its clean, safe, convenient and efficient characteristics, solar photovoltaic power generation has become anemerging industry of universal concern and key development in the world. Among them, Yuexian Aluminum takes advantage of itsown advantages and actively invests in the rapid development of the industry to provide a variety of aluminum products withreliable quality, real materials, fine workmanship and durability to help the development of the industry.

INTRODUCTION
产品介绍

建筑及保温工程铝型材
Aluminum materials for constructive thermal isolation

铝排管
ALUMINUM TUBE

铝排管铝翅片材质一次挤压成型，比传统材质铁管工艺生产的蒸发器热阻小，强化了传导制冷 ；而铝的制冷效果系数为 237W/(m.)，钢的导热系数为 80W/(m.)，所以铝排管比传统光滑钢管换热效率高。经国家商用制冷设备质量监督检测中心检测，铝排管传热系数在 -30°C-0°C蒸发温度下为 K≈9~lw/m2.0°C, 钢排管传热系数在 -30°C~0°C蒸发温度下 K≈7~8w/m2.0°C, 由此可知 , 铝排管的换热效率是钢排管的 1.3 倍。为此同样冷库 (负荷相同情况下)，同样蒸发面积的铝排管和钢排管相比 , 铝排降温速度快、节能效果显著。

Aluminum row a extrusion of aluminum fn tube evaporator thermal resistance than the material,production of traditional material pipetechnology with small,strengthened the conduction and refrigeration:refrigeration effect coeficient of aluminum is 237W/m.K,coefficient oithermal conductivity of steel is 80 W/(m.K), so the aluminum pipes than conventional smooth tube heat exchanger efficiency.By the State Qualily Superysion and testina center of detection of commercial rergeration eauinment aluminurm rowtube heat transfer coelicent at thetemperature of -30 DEG C and 0 Cevaporating temperature is K≈9~IW /m2.0 DEG C, tube heat transfer coefficient at the temperature o-30~0 DEG Cevaporating temperature K≈7~8w/m2.0 DEG C,steel row therefore,aluminum row tube heat exchange eficiency is 1.3 timessteel line pipe.Therefore,the same cold storage lthe same loadl,the same evaporation area of the aluminum pipesand steel tube rowscompared,aluminum row of cooling speed,obvious energy saving effect.

SERVICE

PROCESS

服务流程

咨询沟通 Consultation communication

客户通过电话、在线QQ、传真、邮件形式进行有关信息的资讯、沟通。

The customers communicate and communicate information through telephone, online QQ. fax and e-mial.

业务洽谈 Business negotiation

对于有意合作的客户，公司将委派专业的业务人员进行洽谈

For customers who are interested in cooperation, the company will assign professional business personnel to negotiate

方案策划 Program planning

根据前期沟通情况，公司设计部、技术部将共同对项目进行系统的分析，研究和设计、并与客户进行逐步提案沟通。

According to the communication in the early stage, the design department and the technology department of the company will jointly conduct systematic analysis, research and design of the project, and gradually communicate with the customer on the proposal.

方案确认 Scheme validation

设计方案经与客户修改，最终就预定稿达成一致，由双方共同在预定稿上签字并确认存档。

After the design scheme is modified with the customer, a consensus is finally reached on the predetermined draft, which is signed by both parties and confirmed for filing.

报价、合同 Quotation, contract

对于定稿方案，由公司市场部向客户提供价格预算表，双方达成协议以后即拟销售合同，合同签订后客户按照比例支付合同定金，公司收到定金后即安排生产。

For the finalized plan, the Marketing Department of the company shall provide the price budget table to the customer, and the sales contract shall be prepared after the two parties reach an agreement. After the contract is signed, the customer shall pay the contract deposit in proportion to the contract, and the company shall arrange production after receiving the deposit.

生产 Production

公司以标准化的生产流程一，从产品选料、生产至包装，经过严格工序、多次质检，确保产品精致完美及按时交货。

The company adopts a standardized production process, from product selection, production to packaging, through strict procedures and multiple quality inspections to ensure that the products are exquisite and perfect and delivered on time.

发货、安装 Delivery and installation

成品经过精细、妥当包装，由公司物流专员安排最经济快捷的物流渠道使产品快速安全的送达，或由工程部人员按照客户指定的地点。

The finished products are carefully and properly packaged, and the logistics specialist of the company arranges the most economical and efficient logistics channels for the fast and safe delivery of the products, or the engineering department personnel according to the location specified by the customer.

验收、付款 Acceptance and payment

客户收到产品后需及时进行产品的验收，验收合格后于公司（产品出货单）签字确认并按照产品的销售合同约定付款。

After receiving the product, the customer shall conduct the acceptance of the product in a timely manner. After the acceptance, the company (product shipping note) shall sign for confirmation and make payment according to the sales contract of the product.

售后服务 After-sales service

公司确保对每一位客户均提供专业客服人员一对一的回访、跟踪，并提供专业品牌维护服务。

The company ensures that each customer is provided with professional customer service personnel one-to-one return visit, tracking, and provide professional brand maintenance services.
